

**IT'S MY TURN TO
OPEN A PRESENT!**

GO

IT IS NOT MY TURN

How to make:

Print off both pages and glue it back to back. You can laminate it if you would like it to last longer.

How to use:

Taking turns is a hard thing for many of our kiddos to do, especially with the excitement of presents! Practice using this card before the holiday event where there will be gift opening. You can practice by having an empty box showing them when they can open it and when they need to wait.

Video modeling can also be helpful knowing what the card means. Try having someone else video you using the card.
