Dear Have Dreams Donor,

We did not choose autism, but it did choose us, twice, in our twin sons.

We are truly humbled by your generosity in donating to Have Dreams, where our sons receive vital support through social skills classes and swimming lessons. As scholarship recipients, we are able to enroll both our autistic sons in programs instead of picking only one. How does anyone make that choice? We are grateful beyond words that you have spared our family the pain of having to make such a difficult choice and that our sons continue to progress in wonderful programs designed around their specific needs. We could not have come this far without Have Dreams, and Have Dreams could not have come this far without you. With sincere gratitude always, and wishes of joy this holiday season,
