

The heart of a champion isn't measured by wins,
but by participation, effort and smiles

Through Special Olympics, participants with Autism Spectrum Disorder (ASD) build confidence, skills and friendships; they also experience the joy of participating in sports.

Have Dreams, the area's leading provider of autism services, is offering the opportunity to participate in the upcoming Special Olympics.

Enrollment is now open to join our Aquatics Swim Team!

Have Dreams offers training by certified experienced coaches in a safe, friendly, and supportive environment.
